## IMEKO TC24: CHEMICAL MEASUREMENTS

IMEKO TC24 was founded in 2008 to provide an international forum for effective collaboration in all branches of **Chemical Metrology**. Our goal is to improve the reliability, comparability, and traceability of chemical measurements in many sectors, addressing industrial needs and supporting scientific research.

TC24 is composed of 5 Working Groups, which represent the **main areas of interest**:

- Chemical and biochemical sensors
- Traceability and fundamental chemical metrology
- Separation techniques
- Measurements for Cultural Heritage
- Process Analytical Technology

**Additional topics:**

- Validation, uncertainty, and quality control in chemical measurements
- Chemical measurements for the environment
- Gas metrology
- Data integrity and digitalization
